

AIMS OF THE PROJECT

The project's primary goal is to extend and develop the competences of educators and other personnel who support adult learning (Supporting educators, Youth workers, Educational leaders and supporting staff). "Flip Edu Up" (FEU) aims to modernise adult education using innovative practices in a digital era and vocational training system through Blended Learning via the main objectives listed below.

Specific objectives are:

Help prepare education providers' readiness, resilience and efficiency when handling force majeure situations by equipping them with tools and mindset necessary to continue the learning process

Improve the teaching capacity of adult educators by enhancing their technological pedagogical and content knowledge to design innovative learning environments

Improve the knowledge and digital skills of adult learners, providing them with new ways of learning and engaging them in life-long learning

Support modernisation of education as well as training systems, making teaching and learning designs more innovative, flexible and efficient

ABOUT THE PROJECT

Adult learning is a key part of the lifelong learning spectrum. However, the European Union (EU) labour force survey results show that in 2018 the participation of adults in lifelong learning in the EU stood at only 11.1 %.

Thus, the project aims to provide educators with a new outlook on teaching (educators as designers of innovative learning environments) by improving their digital skills and teaching capacity. This will enable educators to make necessary changes in current teaching curricula, making them more accessible and engaging for all adult learners.

OUTCOMES OF THE PROJECT

"Blended Learning Approach in adult education" guidelines. The guidelines will provide practical guidance to adult education institutions and educators regarding the productive integration of the blended learning method in their training/teaching programmes.

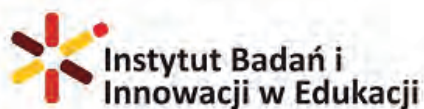

Online learning community - innovators platform. The platform will offer online courses to support adult educators in implementing a blended learning method in adult education and social learning space.

Pilot training – International and local training courses for adult educators will take place to disseminate and test the project results.

"There is no end to education. It is not that you read a book, pass an examination, and finish with education. The whole of life, from the moment you are born to the moment you die, is a process of learning."

- Jiddu Krishnamurti (2003)., philosopher, speaker and writer.

PARTNERSHIP

The project partnership consists of 5 partners from Germany, Cyprus, Italy, Poland and Slovenia aiming to supply educators with the suitable tools, needed implement their combination of Blended learning models to reach their unique educational goals.

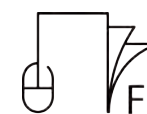

Project partners:

- HeurekaNet – Freies Institut für Bildung, Forschung und Innovation e.V., Germany (Coordinator)
- DOREA Educational Institute, Cyprus
- Mline Vaganti NGO, Italy
- Fundacja instytut badan i innowacji w edukacji, Poland
- Center za izobraževanje in kulturo trebnje javni zavod, Slovenia
